Peer Review for Timothy Francis

Soundart Radio is a community radio station for the Totnes area. I have known Timo since Spring 2009 when he enrolled on one of our 'Stories to Share' workshops. Our workshops combine sound recording and editing skills with creative approaches to programme making. This initial introduction spurred Timo on to present a regular fortnightly radio slot on Soundart Radio. Timo also attended our 6 week 'Creative Radio' workshop in Autumn 2009, where he was able to expand on his skills and knowledge but also contribute widely to the class and collaborative process.

Timo is a highly creative person with an abundance of energy, enthusiasm and good ideas. His work on radio often involves experimenting with the medium to find new ways of combining the aural with the visual via broadband technology. He often approaches conventional topics with an interesting lateral viewpoint, and he networks and collaborates widely in order to produce his work.

I think that Timo would benefit immensely from, but also make a valuable contribution to, the Entrepreneurship for Creative Practices master. Good luck Timo.
